

## **2019-2020 Season Pass Sale**

### **Titus Mountain Race Coaching Program**

In this day and age of ever more competitive children's sports programs, expensive travel teams and a win-at-all-cost attitude, the Titus Mountain Race Program offers something very different.

The goal of the Titus Mountain Race Program is to create good skiers through racing. We don't emphasize the race. The emphasis is placed on having fun and socializing with friends while developing new skills and nurturing a lifelong enthusiasm for the sport. All the coaches are volunteers and most of them learned to ski through the Titus Mountain Race Program themselves.

We nurture a family oriented, friendly and fun atmosphere in which both children and their parents can develop a life-long passion for skiing. The best way to learn to ski is to race. But the race is not the focal point. The race is only the means to an end. The end is loving to ski! At the Titus Mountain Race Program, we love to ski. Come join us.
